Measure #3 (Part 1)

Licensure Passing Rate Report

This measure shows the number of students tested, the number of students passed, and the percentage of students passed for each appropriate vocational program licensure exam, by college from July 1, 2009, through June 30, 2010.

Data is provided by the licensing agencies. This data is not available from the licensing agencies.

Vocational Program Placement Report - by Program

This measure shows the number of completers and the number of leavers from the 2008-09 AA2 follow-up file with the college supplemental placement data matched with the 2009 CIP Tables. The number of completers and leavers that were matched are displayed as the "number in pool". The display also shows the number and percentage of students who completed and were placed into an occupation related to their instruction (which includes the military or continuing their education), and the number and percentage of students who left and were placed into an occupation related to their instruction.
